👤 About Me

I have a background in computer science and a strong passion for Front-End development. With experience in building user-friendly interfaces, I enjoy creating clean, efficient, and visually appealing web applications. I'm always eager to learn and grow, bringing creativity and problem-solving skills to every project

✦ Skills

- React js, tsx
- JavaScript
- Tailwind Css
- Html, Css, Bootstrap
- Critical Thinking
- Problem Solving

🎓 Education

BSCS
The University Of Lahore — 2016 - 2020

Intermediate In Computer Science
Superior College Raiwind — 2014 - 2016

Matriculation
Ali Public School Raiwind — 2012 - 2014

💼 Experience

Berry Boost
Frontend Developer — July 2024 – Present
Working on a large-scale global project integrating multiple systems, including healthcare, travel, insurance, and hotel services. Contributing to both UI development and functionality for a seamless user experience.

Voltonic Solutions
Frontend Developer — Aug 2023 – May 2024
Contributed to a large-scale industry mall project, a multi-vendor and multi-user E-Commerce platform. Focused on UI development and functionality enhancements. The role was aligned with the project's lifecycle and specific requirements.

Webbuggs
Frontend internship — Jan 2023 – Apr 2023
Learned the fundamentals of frontend development, including HTML, CSS, and JavaScript. Gained hands-on experience in converting Figma designs to code and worked with React on small-scale applications

Superior College Raiwind
Computer Teacher — Jan 2021 – Apr 2023
Taught computer science to intermediate students, managed exam conduction, and maintained discipline. Served as the head of the debating society, organizing and supervising events
